ICON OF G.T. ROAD

With its grandeur and uniqueness, Amazon Mall is poised to become not only the icon of GT Road but also of the whole country in the near-future. It is ideally located on the Main GT Road, near DHA-2 Gate 1, right at the centre of Bahria Town and Defence Housing Authority, Islamabad.

Our Neighbors

WHY

G.T. ROAD?

Most of the traditional commercial areas in the twin cities are losing their charm and customers due to ever increasing saturation and multiple other problems such as traffic jams, non-availability of space for parking, lack of security and outdated facilities

With the emergence of new housing and corporate societies, such as Defence Housing Authority and Bahria Town on GT Road towards southeastern boundary of Rawalpindi and Islamabad, this side of GT Road is poised to emerge as the new biggest commercial hub of twin cities.

It bears the potential to be the jugular vein of the twin cities and has already begun to see the rise of skyscrapers lining both sides of GT Road. Future developments such as completion of Islamabad Expressway and construction of the planned Ring Road will add even more to the commercial activity in this area of the GT Road.
